

DGHM SERIES-HAMMER GRANULATOR

GENERAL DESCRIPTION

DGHM Series granulator is specially designed for circuit board and brittle materials. It's a heavy duty type which is crushed by hammering principle. This machine is robust and it has anti-wear treatment crushing chamber, rotor and knives. DGHM Series granulator is beautiful, reliable, adaptable and affordable.

APPLICATONS

CIRCUIT BOARD

TV SET

COMPUTER AND OTHER BRITTLE MATERIALS

ADVANTAGES

- 1、 Anti-wear treatment crushing chamber and rotor
- 2、 Long life knives
- 3、 High versatility
- 4、 Large capacity
- 5、 Output size can be controlled

SPECIFICATION

ITEM	Unit	DGHM600/800	DGHM700/1000	DGHM800/1200	DGHM800/1600
Rotor Diameter	mm	Φ 600	Φ 700	Φ 800	Φ 800
Rotor Width	mm	800	1000	1200	1600
Rotor Knives	pcs	21	24	27	30
Stator Knives	row	2	2	2	2
Cutting Chamber Dimensions	mm	600*800	700*1000	800*1200	800*1600
Motor Power	kw	55-90KW	75-110KW	110-160KW	130-200KW
